

CERAM-KOTE COATINGS INCORPORATED (formerly Freecom, Inc.)

Guaranty of Compliance With Federal Food, Drug and Cosmetic Act (FFDCA)

The United States Department of Agriculture and the Federal Food and Drug Administration no longer issues approvals for coating materials that are used in food processing. Establishment must receive from the suppliers of their materials and retain in their files, written guaranties that materials are in compliance with the Federal Food, Drug and Cosmetic Act (FDDCA), as amended and all applicable food additive regulations.

This letter serves as a letter of guarantee that all ingredients contained in CeRam-Kote Coatings, Incorporated’s CeRam-Kote 54® products are all in compliance with the Federal Food, Drug and Cosmetic Act (FDDCA). All ingredients contained in CeRam-Kote 54® products are listed in the FDDCA as approved materials.

In addition, all ingredients that are used to formulate CeRam-Kote 54® products are listed in the FDA Guidelines for Chemistry and Technology Requirements of Food Additives Petitions as approved materials under Title 21 – Food and Drug Administration.

Ingredient	Section	Page
Isopropyl Alcohol (Isopropanol)	175.105	128
Polyamides	175.105	128
Polymers Hemopolymers Copolymers	175.105	128

Page 139

175.300 Resinous and Polymeric Coatings: The requirements are set for the use of substances used as coatings that are generally recognized as safe in food. Listed under (a) is Epoxy Resins, as a basic polymer; Isopropylidene-diphenol-epichlorohydrin. Freecom certifies that this epoxy resin is the basic resin in CeRam-Kote 54® products and additionally listed is Tetraethylenepentamine and Triethylenetetramine which are also contained in CeRam-Kote 54®.
